

**10th World Congress of
Cognitive and Behavioural
Therapies 2023**
1-4 June 2023
COEX, Seoul, Korea

WCCBT2023 Scientific Program

The Congress will run for 3 full days from Friday 2nd - Sunday 4th June and there will be 25 Pre-Congress workshops offered on Thursday 1st June 2023.

The Congress theme “**Global CBT Dissemination, Accessibility and New Technology**” addresses the reality that CBT is currently evolving at a rapid pace and yet there is a vast unmet global need that requires an innovative and comprehensive dissemination strategy.

The Scientific Committee especially encourages submissions that target the World Congress

theme. In particular, contributions regarding a) dissemination of contemporary CBT treatment and training, b) interventions targeting diverse individual and population characteristics c) the role of CBT in different health systems and d) evidence-based and ethical applications of new technology to CBT, will be welcomed.

Korea, with its excellent scientific and technological expertise, as well as global health perspective, make Seoul an excellent venue at which to address these important priorities.

The Congress program will include:

- 25 invited Pre-Congress workshops
- 35 Invited Addresses
- 15 parallel scientific sessions each day
- Symposia, debates, clinical roundtables, etc.
- Multiple streamed open paper sessions
- 30 In-congress workshops
- High profile continuous poster sessions
- Technical, software & equipment demonstrations
- A large-scale exhibition

The official language of the congress will be English.

Call for Papers

The key submission dates and deadlines are as follows:

1st September 2022 | Full Call for Papers Opens

Symposia, full day and half day in-conference workshops, panel debates, clinical roundtables, open papers and poster presentations.

8th January 2023 | Main Call for Papers Closes

For symposia, full day and half day in-conference workshops, panel debates, clinical roundtables and open papers

12th February 2023 | Call for Posters Closes

Information will be available on the website (www.wccbt2023.org) including the electronic submission procedures, Congress streams and examples of different presentation formats; prior to the Call for Papers opening.

All contributors of successful submissions will be notified in time for them to register at the ‘early-bird’ rate.

The final program will be available prior to the Congress on the website. The program of in-congress workshops will also be available in advance of the congress so that delegates are able to pre-book these when registering for the Congress on-line.
